## STUDENT ASSESSMENT RUBRIC

There are 3 types of rubrics that are presented as examples from the 2020 Higher Education Curriculum Preparation Guidelines, namely:

1. **A holistic rubric** is a scoring guide for judging based on an overall impression or a combination of all criteria.

 <b>HOSPITAL ADMINISTRATION STUDY PROGRAM</b> <b>FATMAWATI COLLEGE OF HEALTH SCIENCES</b>		
<b>A Holistic Rubric</b>		
<b>Grade</b>	<b>Score</b>	<b>Assessment Criteria</b>
Very less	<20	Task is disorganized and does not solve the problem
Less	20 - 40	The presented task is organized but does not solve the problem.
Fair	41 - 60	The presented task is systematized, solves the problem, but is less implementable
Good	61 - 80	The presented task is systematic, solves the problem, can be implemented, less innovative
Very good	≥ 81	The task presented is systematic, solves the problem, can be implemented, and is innovative.

2. **An analytic rubric** is an assessment guideline that has levels of assessment criteria that are described and given an assessment scale or assessment score.

	<b>HOSPITAL ADMINISTRATION STUDY PROGRAM FATMAWATI COLLEGE OF HEALTH SCIENCES</b>				
<b>An Analytic Rubric</b>					
<b>Aspects / dimensions assessed</b>	<b>Very less (Score &lt; 20)</b>	<b>Less (21 – 40)</b>	<b>Fair (41 – 60)</b>	<b>Good (61 – 80)</b>	<b>Very Good (Score ≥ 81)</b>
Organization of ideas and problem identification	There is no clear organization. Facts are not used to support statements.	Fairly focused, but insufficient evidence to draw conclusions.	The presentation has a focus and presents some evidence that supports conclusions.	Well organized and presents convincing facts to support conclusions.	Organized by presenting facts supported by examples that have been analyzed according to the concept.
Content	The content is inaccurate or too general. Listeners do not learn anything or are sometimes misled	The content is inaccurate, because there is no factual data, it does not add to the listener's understanding	The content is generally accurate, but incomplete. Listeners may learn some implied facts, but they do not gain new insights into the topic.	Content is accurate and complete. Listeners gain new insights into the topic.	Content is able to inspire the listener to develop thoughts.
Presentation style	The speaker is anxious and uncomfortable, and reads notes instead of speaking. Listeners are often ignored. There is no eye contact as the speaker looks more at the board or screen.	Stick to notes, no ideas developed outside the notes, monotone voice	The speaker is generally calm, but with a flat tone and relies on notes quite often. Sometimes eye contact with the audience is negligible.	Speaker is calm and uses proper intonation, speaks without relying on notes, and interacts intensively with the audience. The speaker always makes eye contact with the audience.	Spoke with passion, transmitting passion and enthusiasm to the audience.
Evaluation	Participants are uncooperative, there is no participation, no evaluation of their level of understanding and little motivation to apply.	Participants are quite cooperative, minimal participation, minimal evaluation of the level of understanding and minimal motivation to implement	Participants are generally cooperative, there is participation, there is an evaluation of the level of understanding and there is visible motivation to apply.	Participants are generally cooperative, there is participation, there is evaluation of the level of understanding and feedback is given, and there is motivation to apply.	Participants are well conditioned, interactive throughout the session, there is evaluation before and after the session and there is high motivation to implement.

3. A **perception scale rubric** is an assessment guideline that has levels of assessment criteria that are not described, but still given a rating scale or rating score.

	HOSPITAL ADMINISTRATION STUDY PROGRAM FATMAWATI COLLEGE OF HEALTH SCIENCES				
	A Perception Scale Rubric				
Aspects / dimensions assessed	Very less (Score < 20)	Less (21 – 40)	Fair (41 – 60)	Good (61 – 80)	Very Good (Score ≥ 81)
Communication skills					
Content mastery					
Ability to deal with questions					
Use of presentation props					
Accuracy in solving problems					

**HOSPITAL ADMINISTRATION STUDY PROGRAM  
FATMAWATI COLLEGE OF HEALTH SCIENCES**

**Journal Reading Paper Assessment Rubric**

No.	Aspects / dimensions assessed	Load	Score	Description
1	Articles are from indexed journals within the last 5 years.	5		
2	Articles are related to the specified theme	5		
3	The article at least discusses according to the specified topic	5
